

EVO

Our most powerful brake for the demands of DH and Enduro racing, or performance E-MTB's. Designed with a 2.3 mm High-Flow caliper offering ultimate heat stability and a 9 mm lever piston to give immense power and an ultra-light lever feel, the DHR EVO creates unrivaled brake power with controllable modulation to master any of your challenges.

For E-MTB touring riders who are looking for stability and reliability. From the outside it differs by its brake lever design, but from the inside it is on the same level of performance as the DHR EVO. A 10 mm lever piston provides easier modulation for control over long descents.

With the SLATE EVO comes EVO performance and e-bike solution features to the entry-level price range. The solid Slate design has received all EVO features like 2.3 mm brake calipers, which offer a significant increase in performance and the ability to accept rotors up to 223 mm diameter.

DHR EVO

RECOMMENDED CATEGORIES	E-MTB / Gravity / Downhill / Park
WEIGHT	310g - without rotor & adapter
MATERIALS	Forged Alloy
COLOR	NEW Matte Black, Silver, Gold
CALIPER	4 Piston Hybrid Design
LEVER BLADE	1-2 Finger Ergonomic Design / Alloy
LEVER REACH AJUSTABLE	Index tool free
OIL	Performance Mineral oil
OIL HOSE	TRP 5 mm
BANJO FIT	Banjo interface for easy and flexible cable routing
PADS	Blue: Performance Resin - Copper: Full Metallic (opt.)
ROTORS	2.3 mm thick
SIZES 6-BOLT	180/203/220/223 mm
SIZES CENTER LOCK	160/180/203 mm
SHIFTER INTEGRATION	Adapters: HD3.7/ I-spec II direct /I-spec EV HD4.0
INTERFACE	Direct Mount
ADAPTER	Post Mount

TRAIL EVO

RECOMMENDED CATEGORIES	E-MTB / Enduro / Tour
WEIGHT	307g - without rotor & adapter
MATERIALS	Die-Cast / Forged Alloy
COLOR	Glossy Black
CALIPER	4 Piston Hybrid Design
LEVER BLADE	1-2 Finger Ergonomic Design / Alloy
LEVER REACH AJUSTABLE	Index tool free
OIL	Performance Mineral oil
OIL HOSE	TRP 5 mm
BANJO FIT	Banjo interface for easy and flexible cable routing
PADS	Blue: Performance Resin - Copper: Full Metallic (opt.)
ROTORS	2.3 mm thick
SIZES 6-BOLT	180/203/220/223 mm
SIZES CENTER LOCK	160/180/203 mm
SHIFTER INTEGRATION	Adapters: HD3.7/ I-spec II direct /I-spec EV HD4.0
INTERFACE	Direct Mount
ADAPTER	Post Mount

SLATE EVO

RECOMMENDED CATEGORIES	E-MTB / All Mountain / Tour
WEIGHT	291g - without rotor & adapter
MATERIALS	Die-Cast / Forged Alloy
COLOR	Matt Black
CALIPER	4 Piston Stainless Design
LEVER BLADE	1-2 Finger Ergonomic Design / Alloy
LEVER REACH AJUSTABLE	Tool free
OIL	Performance Mineral oil
OIL HOSE	TRP 5 mm
BANJO FIT	Banjo interface for easy and flexible cable routing
PADS	Blue: Performance Resin - Copper: Full Metallic (opt.)
ROTORS	2.3 mm thick
SIZES 6-BOLT	180/203 mm
SIZES CENTER LOCK	160/180/203 mm
SHIFTER INTEGRATION	Adapters: HD3.3/I-spec II HD3.4/ I-spec EV HD4.1
INTERFACE	Direct Mount
ADAPTER	Post Mount
